## Berita Pasar Surat Utang

**PT Mandiri Tunas Finance (MTF) serta PT Sarana Multigriya Financial (SMF) berencana menerbitkan obligasi senilai total RP 3 triliun semester II.** Yield SUN masih dibayangi sejumlah tekanan seperti depresiasi rupiah, devaluasi mata uang Yuan, rencana kenaikan suku bunga bank sentral Amerika Serikat atau Fed rate, serta serapan anggaran pendapatan dan belanja negara (APBN) yang belum maksimal di semester II. Tingkat kupon obligasi ditetapkan oleh kisaran risk free yang diperoleh dari yield SUN. Sehingga, apabila terdapat potensi kenaikan yield SUN di semester II, maka secara otomatis kupon obligasi korporasi ikut terkerek naik. Selain itu, kupon juga ditetapkan berdasarkan risk premium atau imbal hasil tambahan yang diminta oleh investor. Faktor ini dipengaruhi oleh kondisi industri dan masing-masing emiten. Di mana, kredit bermasalah atau non performing loan (NPL) terancam mengalami kenaikan akibat tingginya suku bunga acuan Bank Indonesia atau BI Rate yang mengerek kenaikan suku bunga pinjaman. Di sisi lain, melemahnya daya beli masyarakat juga ikut mendorong sepiunya kredit. Akibatnya, bisnis perusahaan ikut lesu dan mendorong penurunan pendapatan. Kondisi tersebut menyebabkan obligasi menjadi kurang menarik sehingga investor akan meminta kupon tinggi.
