Global Market Highlights

The DJIA closed -0.76% lower on Wednesday (03/01), followed by the S&P 500 (-0.80%) and Nasdaq (-1.18%). Wall Street closed in the red as Fed's December-23 FOMC minutes indicated restrictive rates to remain, curtailing investor's expectation of a hasty rate pivoting in FY24E. On the other hand, supporting sentiments came from the weaker-than-expected US November-23 JOLTS job openings that fell to 8.79 million (vs. 8.82 million), subduing the UST 10-yr yield back 4 bps to 3.91%. Today the market will be looking forward to several data releases such as: 1) US PMI Services Final Dec-23; 2) Germany Inflation Rate Prel YoY Dec-23; 3) US Initial Jobless Claims Dec/30.

Domestic Update

The Ministry of Finance reports that the budget deficit for 2023 has decreased to 1.65%, equivalent to IDR 347.6 trillion. MNCS Comment: The budget deficit is significantly lower than previous estimates of 2.30% and 2.35% in FY22. This figure aligns with an increased revenue realization of +5.3% YoY, amidst a govt. spending growth of +0.8% YoY. This reflects a relatively solid macroeconomic position, despite negative global sentiments. Meanwhile, we anticipate an increase in spending realization in FY24E to boost consumer spending levels amid challenges from El-Nino and uncertainty surrounding the elections.

Company News

- 1. CMNP IJ has secured an additional credit injection worth IDR600 billion for the development of a 9.6 km elevated toll road from East Ancol to Pluit (Kontan). MNCS Comment: We assess that CMNP's financial posture is still prudent for additional debt capital injections; the company's DER was recorded at the level of 0.32x as of 9M23 (+111.5% YoY), accompanied by strong revenue performance with net profit growth of 26.7%. It is also noted that CMNP has targeted a revenue of IDR3.9tn in FY24E, or growth of ~10% YoY from FY23's estimated revenue. Currently CMNP is trading at 6.73x/0.73x PE/PBV.
- 2. 2. BUMI IJ targets coal production to reach 80 million tons in FY24E (Market Bisnis). MNCS Comment: We note that the target is relatively flat with FY23, which was set at 75-80 million tons. Meanwhile, the production level until 9M23 reached 56.2 million tons (+4.7% YoY), or realization of 74.9%-70.3%. We anticipate favorable weather conditions to continue supporting production into FY24E. However, there is a downside risk due to the imposition of coal imports duties by China. Currently BUMI is trading at 30.20x/1.48x PER/PBV.
- 3. EAST IJ exposed optimism of revenue target to hit IDR 110-120bn in FY24 from IDR106bn target in FY23 and net profit up to IDR45bn from IDR36bn. Additionally, EAST prepares Capex allocation of IDR2bn for rooms maintenance and repair (Kontan). MNCS Comment: We assess the target to be achievable considering the company's performance in 3Q23 with revenue and net income growth of +24.79% and +29.20% respectively. EAST is currently trading at level 23.48x/2.42x PER/PBV.

IHSG Updates

The JCI declined by -0.61% to 7,279.09 on Wednesday (03/01), followed by net foreign sell of IDR172.54 billion. Most sectors shrunk and slowed the index down, led by the healthcare sector (-0.92%) and followed by the consumer non-cyclicals sector (-0.82%). On the other hand, the growing sectors were led by the technology sector (+0.21%) and followed by the transportation & logistic sector (+0.12%). Most of the Asian markets also slumped as markets are still processing the impact of slowing inflation rate and the release of several macroeconomic data this week. The Rupiah closed lower at IDR15,480/USD. We estimate the IHSG will move within the price range of 7,265-7,340. **Today's Recommendations: ARTO, ENRG, SMRA, TKIM.**
